SHAIK ABDULLA

Oracle Fusion Technical Consultant

Hyderabad | +91 6300078028 | inthyaz0@gmail.com

PROFESSIONAL SUMMARY

Oracle Fusion Technical Consultant with 1 year of experience in Oracle Fusion Cloud experience in Procurement and Supply Chain Management technical development, reporting, integrations, and data migration. And experienced in Oracle Integration Cloud (OIC), BI Publisher, OTBI, FBDI, SQL/PL-SQL, REST/SOAP, FTP, UCM and ESS. knowledgeable in using Product Data Hub (PDH) and creating automated Supplier Import integrations with error handling, reconciling and reporting functionalities.

TECHNICAL SKILLS

Oracle Fusion Cloud : SCM , Procurement , Product Data Hub (PDH) , ESS Jobs , Scheduled Process .

Reporting & Analytics : BI Publisher, SQL Data Sets / Data Models , RTF / XSL Templates , OTBI Analyses , dashboards.

Integration : Oracle Integration Cloud (OIC) , REST APIs , SOAP Web Services , FTP Adapter , Oracle ATP / Autonomous Database, ERP Cloud Adapter , JSON Payloads , mapping , fault handling, LookUps.

Data Migration: FBDI, CSV Preparation, UCM Upload, ESS Job Execution, Import Validation, Error Handling, Data Reconciliation.

Database: SQL, Joins, Sub-queries, Aggregations, Filtering, Data Validation, Basic PL/SQL.

HCM: HDL (HCM Data Loader) File Preparation, Validation, Load Error, HCM Extracts.

Programming: Python, Flask, JavaScript, PHP, HTML5, CSS3, Bootstrap, Node.js.

Tools & Concepts: GitHub, Integration Monitoring, API Design, Troubleshooting.

PROFESSIONAL EXPERIENCE

Oracle Fusion Technical Consultant

Kaapture Minds | Aug 2025 – Present

- Delivered Oracle Fusion Cloud SCM and Procurement implementation work across reporting, data migrations, integrations, and technical issue resolution.
- Built BI Publisher reports using SQL Data Models and RTF/XSL templates, applying grouping, conditional logic, nested groups, and hierarchical calculations.
- Designed OTBI analyses and dashboards using subject areas, dimensions, measures, calculated columns, filters, and prompts.
- Engineered Oracle Cloud integrations via REST APIs, SOAP services, FTP adapter, and ERP Cloud adapter, covering payload mapping, transformation, scheduling, and error handling.
- Executed FBDI-based data migration for Oracle Fusion SCM (CSV validation/prep, UCM upload, import error monitoring), and resolved data issues through SQL/PL-SQL extraction, reconciliation, joins, and aggregation.

Key Integration Project — Automated Supplier Import

- Architected a two-integration OIC solution automating vendor onboarding from an external FTP site into Oracle Fusion Cloud Procurement/SCM via FBDI.
- Built an integration flow retrieving supplier CSVs from FTP, staging records in an Oracle ATP layer (tracking batch ID, status, Fusion request ID, retries, and errors), generating zipped Supplier FBDI packages, and uploading them to Fusion UCM.
- Triggered the Fusion Import Suppliers process via the ERP Cloud Adapter and managed the full ESS request lifecycle through callback handling, correlating ESS request IDs for downstream processing.
- Implemented a second OIC integration pulling PROCESSED/REJECTED results per supplier from a BI Publisher report, using For Each and Switch activities to route successful and rejected records.
- Reconciled ATP staging records with SUCCESS/ERROR status and error messages, generated batch-level error CSVs routed to the FTP error folder, and automated a results summary reporting total, successful, and failed supplier counts.

WEB DEVELOPMENT INTERN

Full Stack Web Development Internship
Interncall | Jan 2024 – Apr 2024

- Developed frontend and backend modules using PHP and MySQL, including database integration and authentication.
- Worked on real-time web application functionality and backend data processing.
- Recognized as Best Intern for performance and contribution.

PROJECTS

AI-Based Smart Attendance System
Technologies: Python, Flask, Firebase Firestore, Chart.js

- Developed a face-recognition-based attendance management system with duplicate-prevention logic.
- Implemented REST APIs for attendance marking and retrieval and developed a subject-wise analytics dashboard using Chart.js.

EDUCATION

Master of Computer Applications — SGPA: 8.86
RGM College of Engineering & Technology, Nandyal, Andhra Pradesh | 2024 – 2026

B.Sc. Computer Science — GPA: 8.56
St. Joseph's Degree College, Kurnool, Andhra Pradesh | 2021 – 2024

CERTIFICATIONS

- Oracle Fusion Cloud Applications SCM Process Essentials Certified – Rel 1
- Oracle Fusion AI Agent Studio Certified Foundations Associate – Rel 1
